

ABOUT ME

Final-year Electronics and Communication Engineering student with a Computer Science minor, focused on UI/UX and product design. Experienced in building user-centric interfaces, translating requirements into intuitive user flows, and collaborating with cross-functional teams to deliver scalable digital products.

EXPERIENCE AND PROJECTS

Artificial Intelligence (AI) Intern

Jun 2025 – Aug 2025

- Built and automated workflows using Agentic AI during a virtual internship.
- Trained ML models and developed AI systems achieving approximately 85% performance.

Recipe Generator Website (Under Development)

Hackathon Project

- Collaborated in a team of 4 to build a full-stack recipe generation platform.
- Designed user flows and interface structures for ingredient-based recipe discovery.
- Developing frontend using HTML, CSS, React and backend logic with Python/Node.js and LLM integration.

YouTube Clone Page (Under Development)

Personal Project

- Built a responsive clone of YouTube's homepage with interactive UI elements.
- Implemented layouts and animations using HTML5, CSS3 and JavaScript.
- Replicated real-world design systems and complex web interfaces.

Sales Analytics Dashboard – Power BI & SQL

Personal Project

- Developed an interactive dashboard using the AdventureWorksDW2022 dataset.
- Performed data extraction, transformation and modeling using SQL and SSMS.
- Created KPI cards, DAX measures, geographic mapping and trend visualizations.
- Enabled revenue tracking, customer analysis and data-driven budgeting decisions.

Gaming Hackathon – PARALLAX

- Designed interactive game environments with focus on user experience.
- Worked with Unreal Engine and Godot while applying OOP principles.
- Strengthened teamwork and problem-solving under strict deadlines.

EDUCATION

PES University, Bengaluru

2022 – 2026

B.Tech in Electronics and Communication Engineering (Major)
Minor in Computer Science

NRI Junior College, Guntur

2020 – 2022

Andhra Pradesh Board of Education

SKILLS

Programming: HTML, CSS, Python, C, JavaScript, SQL, React.js, Node.js, Flask

UI/UX & Product Design: User Flows, Usability Thinking, Product Lifecycle, KPI Definition, Data Visualization

Tools: Figma, Adobe XD, Git, VS Code, Power BI, Excel, Notion, Microsoft Tools

Soft Skills: Leadership, Communication, Teamwork, Creativity, Innovation, Problem Solving

CORE COMPETENCIES

Problem Solving | DSA | Full-Stack Development | Data Modeling | User-Centered Design

Cross-Functional Collaboration | Debugging & Testing | Version Control | Communication

ADDITIONAL INFORMATION

Hobbies: Puzzle Solving, Game Development, Space Technology, Financial Analysis, Sports, Drawing, Traveling, Amazon Affiliate Marketing
